The BSCG Certified Drug Free[®] program provides assurance that dietary supplements, natural products, cosmetics, medical devices, or other products are free of banned substances and other harmful agents that can lead to health concerns or positive drug tests. As part of the program, finished product batches are tested for more than 485 drugs including 274 banned in sport and an additional 211 prescription, over-the-counter, and illicit drugs not banned in sport. This Batch Certification verifies that samples of the product identified by brand name, product name, and batch number below have been tested at our ISO/IEC 17025 accredited laboratory partner by instrumental screen using liquid chromatography/mass spectrometry (LC/MS) and that no compounds were detected according to the details and method detection levels in the BSCG Certified Drug Free[®] [testing menu](#). The BSCG Certified Drug Free[®] program offers drug testing security to athletes and professionals across the spectrum of WADA, NFL, MLB, NHL, NBA, WNBA, PGA, LPGA, MLS, CFL, ATP, WTA, FIFA, FINA, AFL, NRL, NASCAR, UFC, CrossFit, NCAA, military, first responder, and other drug testing programs.
